

(c) A manner that will not significantly degrade the environment and will permit project measures to serve the purpose for which they were installed as set forth in the watershed or RC&D measure plan.

(d) Compliance with the time frames and O&M work items established in the plan of O&M and inspection reports.

(e) Accordance with agreements with NRCS on admission charges and user fees for public recreation and/or fish and wildlife facility. Admission or user fees shall be charged only as necessary to produce revenues required to amortize the sponsor(s)' share of installation costs and to provide adequate O&M for that portion of the project measures pertaining to public recreation and/or fish and wildlife facility. Sponsor(s)' admission or user fee charges require prior NRCS approval throughout the life of the O&M agreement.

(f) Accordance with the schedule for withdrawal of water in water impounding structures as specified in the watershed or RC&D measure plan or other legal documents.

(g) A manner consistent with the project objectives.

§ 654.16 Property management.

Sponsor(s) are to:

(a) Use real property acquired in whole or in part with Federal funds as long as needed for the purpose for which it was acquired and in accordance with the O&M agreement. If real property acquired in whole or in part with Federal funds is no longer needed for the purpose for which it was acquired, the sponsor(s) shall obtain NRCS approval for future use or disposition.

(b) Use nonexpendable personal property acquired in whole or in part with Federal funds as long as needed for the purpose for which it was acquired in accordance with the rules governing Federal grant property (34 CFR part 256).

(c) Establish, adopt, and comply with a property management system which meets the standards governing Federal grant property.

§ 654.17 Inspection.

(a) Sponsor(s) are to make periodic and special inspections of installed project measures as provided in the plan of O&M. For structural measures, inspections are to be made at least annually and after each major storm or occurrence of any unusual condition that might adversely affect the project measures. At the discretion of the State Conservationist, NRCS may assist sponsor(s) with their inspections. NRCS or land-administering agencies may make independent inspections at any time during the period covered by the O&M agreement.

(b) Sponsor(s) are to maintain a written record of each inspection and furnish NRCS and land-administering agencies a copy of that record. The record should identify items inspected, O&M work that may be needed, a time frame to do the work, and the date of the inspection. The NRCS and land-administering agencies will provide the sponsor(s) a copy of a similar record of independent inspections.

(c) The sponsor(s) shall perform the O&M work listed as needed in the inspection reports within the time frame established for each item of work. Failure to perform O&M work will be considered a violation of the O&M agreement and will be handled in accordance with § 654.20.

(d) Sponsor(s) are to maintain a written record of work performed which is listed in the inspection report and a record of other significant O&M activity. The record will identify the measure, item of work, cost of performance, and date completed.

(e) Sponsor(s)' records relative to the project shall be made available to NRCS for examination.

§ 654.18 Natural Resources Conservation Service responsibility.

The Natural Resources Conservation Service will assist the sponsor(s) in developing a watershed or RC&D measure plan which includes a description of O&M work and estimated cost, assist in the preparation of O&M agreements and plans of O&M, enter into O&M agreements with the sponsor(s), and notify the sponsor(s) of observed failures to comply with the O&M agreement.
